“REACH Certificate of Compliance”

Declaration of ETI Systems Inc – Non-Use of 173 SVHCs in Components

The products **ETI Systems Inc** supplies do not contain any of the **173 Substances of Very High Concern (SVHCs)** identified in the **REACH Regulation** in their composition or make-up (reference list below).

Based on the evaluation of our role under the **REACH** terms we can confirm at this that **ETI Systems** does not manufacture, export or import:

- Chemical substances in excess of 1 ton a year
- Mixtures or preparations of chemical substances
- Substances or preparations in containers
- Articles which contain substances which are intentionally released during their use

A complete listing of **173 SVHC (Substances of Very High Concern) known as “RoHS2”** was updated and published by the EU on the **12th January 2017**. The list can be found at <http://echa.europa.eu/candidate-list-table> ETI Systems confirms intentional composition of articles, including packaging, we put on the market do not contain such substances above the maximum concentration as defined in the REACH Regulation. We are in constant communication with the supply chain to determine if any such substances are present in the materials supplied to ETI Systems.

ETI Systems does not independently conduct analytical testing for REACH and the information in this letter is based upon technical data from our supply chain sources which is believed to be reliable and accurate. ETI Systems will notify its affected customers upon any discovery of any article containing a SVHC or banned substance above the maximum concentration defined in REACH.

Sincerest regards,

James Wilkes
President
