CA Proposition 65 Declaration - 2023

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. Exposure to these chemicals may take place when products are acquired or used. Exposure may also occur in homes, workplaces, or other environments in California. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.

ETI Systems is aware of the disclosure requirements and is continually working to keep updated information available for employees, customers and/or end users that our products **may** include, but are not limited to, **glass fibers, lead containing solder/alloy/plating, nickel alloy/plating, and in plastics, antimony trioxide** in trace amounts listed in California's Safe Drinking Water & Toxic Enforcement Act of 1986. Though ETI Systems does not manufacture consumer products our components may be incorporated into consumer electronics, and larger consumer products therefore we are providing the following warnings.

WARNING This product can expose you to chemicals such as lead or nickel which are known to the State of California to cause cancer and reproductive harm. For more information, go to www.P65Warnings.ca.gov.
